The art of design, the science of acoustics.

Driven by function and quality, our products blend the highest design principles with the latest digital audio technology, each designed to leave a lasting impression and to stand the test of time.

Founded in 2004 in the small market town of Lanark, Scotland, Revo is a pioneer in digital radio and audio streaming and the recipient of multiple RedDot and iF product design awards. Since mid-2020, REVO is a proud part of German TELESTAR-DIGITAL GmbH's brand portfolio.

Revo products are sold in 20 countries worldwide.

**BEAT THEM
FOREVER
AND EVER**
we can be heroes, for ever and

Four days in Berlin

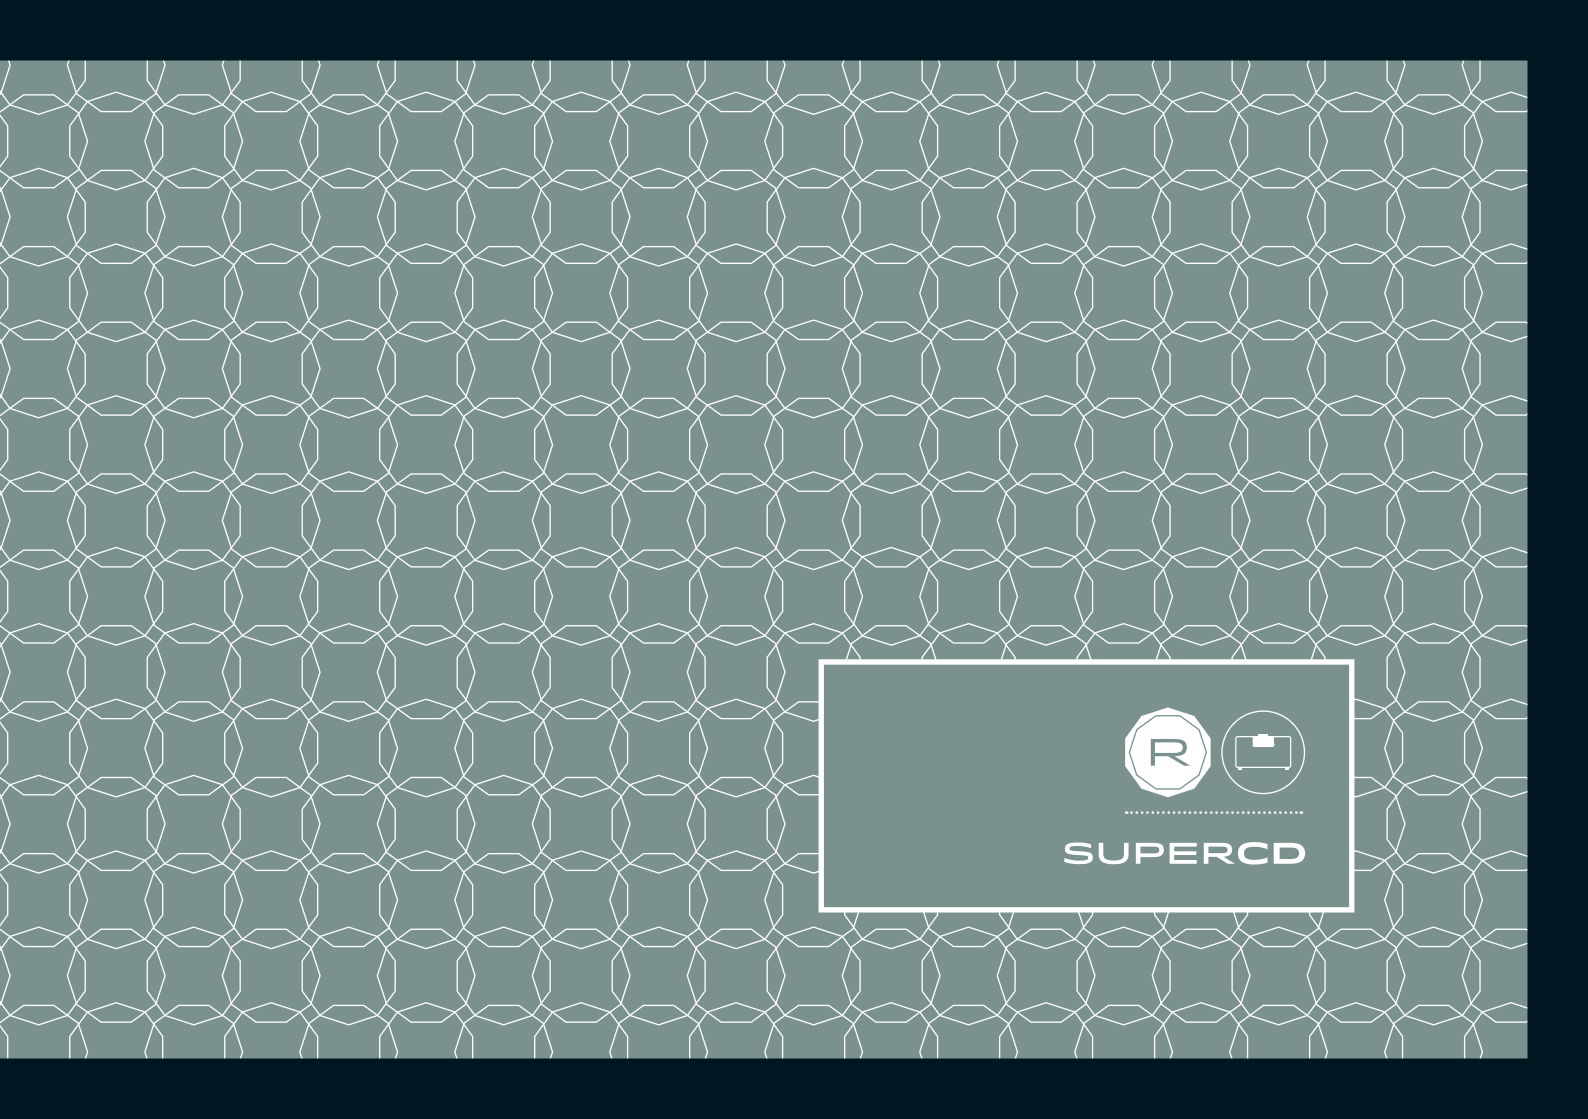

Early one beautiful May morning the Revo team rolled into Berlin's Mitte district on a mission to take some cool photographs of our SuperSeries range, soak up the sights and sounds of one of the great capitals of the world, and hopefully have some fun while creating a few memories along the way.

The fruits of our labour can be found throughout this brochure, which we dedicate to the people and places of the city of Berlin.

SUPERCD

SuperSystem is a thoroughly modern music system, combining traditional values of craftsmanship and material integrity with next-generation all-digital technology, superlative room-filling acoustic performance and award-winning industrial design.

SuperSystem has all the bases covered. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming service. Thanks to the inclusion of UNDOK technology, music can be wirelessly distributed to other compatible devices in your home to establish a sophisticated multiroom audio environment, controllable via an app for iOS or Android devices.

SuperSystem is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio – providing access to over 24,000 stations from around the world. But the music doesn't stop there – SuperSystem's ability to communicate with external devices and services is unrivalled. Network audio and WLAN technology enables wireless audio playback from external computers and music servers, Bluetooth® with aptX® delivers CD quality streaming from smartphones, tablets etc., and Spotify Connect completes the proposition by unlocking over 24 million tracks from the Spotify archive.

SuperSystem is crafted using the finest materials and components, its all-wood cabinet with anodised aluminium and mild-steel facia and backplate compliment its advanced electronics beautifully. A detailed graphical OLED display and joystick control add a touch of modernity, while twin 3.5" BMR speaker drivers and integrated active subwoofer deliver 80W of clear room-filling digital audio with pin-sharp clarity and deep, satisfying bass.

- ▶ DAB/DAB+, internet radio and FM
- ▶ Music Streaming & Network Audio

- ▶ 80 watt Class-D amp & BMR drivers
- ▶ Bluetooth® with aptX®

- ▶ iOS and Android control app

SUPERCONNECT

Functionalism meets craft and technology, a next-generation audio device that beats at the heart of your musical ecosystem, providing whatever soundtrack you need. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming service. Thanks to the inclusion of UNDOK technology, music can be wirelessly distributed to other compatible devices in your home to establish a sophisticated multiroom audio environment, controllable via an app for iOS or Android devices.

SuperConnect is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio - providing access to over 24,000 stations from around the world. SuperConnect's ability to communicate with external devices and services is unrivalled. Network audio and WLAN technology enables wireless audio playback from external computers and music servers, Bluetooth® with aptX® delivers CD quality streaming from smartphones, tablets etc., and Spotify Connect completes the proposition by unlocking over 30 million tracks from the Spotify archive.

SuperConnect is available in five distinct colour combinations, each with an all-wood cabinet, anodised aluminium and mild-steel facia and backplate. A graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and BMR driver technology deliver 15W of clear digital audio with clarity and deep, rich bass.

- ▶ DAB/DAB+, internet radio and FM
- ▶ Music Streaming & Network Audio

- ▶ 15 watt Class-D amp & BMR driver
- ▶ Bluetooth® with aptX®

- ▶ iOS and Android control app

SUPERSIGNAL

SUPERSIGNAL

“Visual appeal and superb audio ability mean the SuperSignal is a radio to be reckoned with.”

American Walnut & Silver Anodised Aluminium

American Walnut & Black Anodised Aluminium

SUPERSIGNAL

SuperSignal shares the functionalist design philosophy and uncompromising quality ethos that is our hallmark, ensuring that it is truly a product without equal in the compact digital radio category.

SuperSignal is equipped to receive DAB/DAB+ broadcasts, as well as traditional FM with RDS. Bluetooth® support is also included, meaning users can wirelessly stream music from their iPhone, Samsung, Windows Phone, Blackberry or other Bluetooth enabled device, including laptops and tablets – with no physical docking necessary. The addition of CSR's aptX® technology means that where supported by the transmitting device, streaming music will be at CD quality rather than the lower bit rate MP3 quality of standard Bluetooth. SuperSignal includes sophisticated alarm clock functionality including dual alarms, Sleep and Touch-Snooze activated by simply touching the radio's aluminium grille.

SuperSignal's wooden cabinet is clad in a choice of furniture-grade American walnut veneer or premium quality matt paint finishes, while anodised aluminium and mild-steel components provide a reassuringly tactile quality. A detailed graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and BMR driver technology deliver 12W of clear digital audio with clarity and deep rich bass.

- ▶ DAB/DAB+ and FM with RDS
- ▶ Bluetooth® streaming with aptX®
- ▶ BMR flat diaphragm loudspeaker
- ▶ 12 watt via Class-D amplifier
- ▶ Alarm clock with Sleep & Snooze

"Not many radios we review manage to impress on so many fronts... design, ease of use and sound quality - the REVO has it all. Super by name, Super by nature."

"The REVO SuperSystem is exactly that - a super system for listening to pretty much anything you like."

"The REVO SuperSignal is a brilliant bedside radio. The Bluetooth tech is well implemented and the sound quality is consistently excellent."

"REVO's got a near-flawless record when it comes to home audio"

"A superb sounding radio that covers all the bases and more. Five Stars & Best Buy"

"The SuperSystem is the one-box unit that manages to get closest to achieving the sound of a dedicated separate speaker system in terms of scale and impact."

"SUPER-CHARGED - Tune-in, listen-up... and let the music wash over you"

"SuperConnect's strengths are many... we give it our unreserved recommendation."

"Visual appeal and superb audio ability mean the SuperSignal is a radio to be reckoned with."

SuperSeries Acoustics

The award-winning audio characteristics of our SuperSeries products are the result of a considered blend of the finest electronic, acoustic and software design. The finest audio components, all-digital technology, cutting-edge sound modelling techniques and a carefully engineered bass porting system combine to deliver category defining performance.

BMR

BMR (Balanced Mode Radiator) speaker drivers utilise flat diaphragm transducer technology and combine the performance attributes of a flat panel speaker with the pistonic movement of a conventional loudspeaker, resulting in a high performance compact drive unit that develops wide dispersion and an expanded sweet spot.

EQ

Our engineers utilise advanced sound modelling techniques to design the award-winning sound profiles used in our SuperSeries models. In tandem with our custom hardware design, our proprietary EQ configurations develop a warm open sound with clarity, detail and deep rich bass - free from coloration and distortion and benefiting from an expansive sound field.

CABINET

A hand-crafted wooden cabinet has been selected for its superb acoustic properties, no other material provides the deep foundations of great audio performance like wood.

AMPLIFICATION

All-digital Class-D amplifiers.
